EXECUTIVE SUMMARY

Visionary corporate macro-artist seeking to subjugate the calendar of a Fortune 500 CEO by replacing logistical competence with profound ontological confusion. Adept at transforming simple scheduling conflicts into spiritual journeys. Believes that an email inbox is not a tool for task management, but a digital terrarium for untamed thoughts.

PROFESSIONAL EXPERIENCE (OF THE MIND)

VORTEX OF SYNERGY & OBLIQUE LOGISTICS

Senior Vice President of Not-Quite-Answering the PhoneYear Zero – The Present

- Managed the CEO’s daily schedule by

Managed the CEO’s daily schedule by refusing to acknowledge chronological time, organizing meetings strictly by emotional temperature and color theory.
Spearheaded the quarterly "Where Are We?" initiative, where all board members stared at a blank wall for four hours to manifest next quarter's synergy.
Successfully misplaced crucial mergers by filing them under "Things That Smell Like Tuesday," thereby preventing hostile takeovers through sheer administrative bewilderment.

THE DEPARTMENT OF TANGENTIAL COMPLIANCE

Executive Assistant to the Concept of DelegationThe Before Times – Year Zero

Handled travel arrangements by booking

forcing a journey of radical self-discovery disguised as a missed quarterly earnings call.

Drafted corporate emails entirely in interpretive dance notation, which were then faxed to a bakery in Wisconsin to test market resilience.

Maintained the corporate ledger using abstract expressionist finger-painting; audited by the SEC, who wept openly upon viewing the Q3 liabilities.

CORE COMPETENCIES & VIBES

Calendar Sabotage: Expertly double-booking the CEO in three different time zones simultaneously to foster quantum productivity.

Radical Inefficiency: Turning a simple five-minute memo into a multi-act avant-garde

performance piece involving fog machines and interpretive murmuring.

Stakeholder Alienation: Ensuring clients leave every meeting feeling deeply unsettled, deeply inspired, and entirely unsure of what company they just invested in.

NOTE REGARDING SOFTWARE PROPOSAL

I've got software that does everything your sites say they do. I'd like to give it to you so that I can do any of those things with that software for you or anybody else because the software's done and does all the stuff you say you do with an interactive surface that allows you to communicate through the site instead of through this stupid shit and get live feedback and evaluations instead of making everybody wait and not know what the fuck's going on.

So if that's of any interest to you, just send me an email at zxws1100@gmail.com and I'll give it to you. And then you can let me know if it's worth anything at all.

Thank you,
David Dunn, D. O. N. E.
